## Partnering with God in Health and Wellness Series

### **Class Nine**

#### **Cancer**

##### **I. WHERE IS GOD IN UNDERSTANDING CANCER?**

- A. God is the same yesterday, today and forever more. It is not God's heart for His people, His creation to have such a terrible illness such as cancer. Why does God allow cancer? Why doesn't God just fix everything?
- B. We have free choice. We know there are choices in our life that can result in sickness and disease.
- C. God's heart is breaking over the record levels of sickness on the earth. Yes, we have all chosen things that separate us from God's design. However, we have also been greatly manipulated, deceived, and blinded by the devil related to the business of disease. We need the truth. God please reveal the truth!

***"God is a just judge, and God is angry with the wicked every day." Psalm 7:11***

D. The lies:

- Cancer is incurable.
- Cancer is a death sentence.
- Chemotherapy radiation and surgery are your best option.
- Chemotherapy and radiation are your only options.
- A man-made drug or treatment will cure cancer

***We have to start looking at disease from the lens that we have a good God  
who created an amazing body designed to heal itself.***

##### **II. WHAT IS CANCER?**

- A. In its most simplistic explanation, cancer is a chronic condition of toxicity and acidosis in the human body. When the DNA in the cells of the human body are damaged, cancer cells can be the result. The cells are only as healthy as the environment in which they are living.
- B. Life is cause and effect. God is a God of design. There is cause and effect to cancer. It isn't the mystery the medical industry wants you to believe.
- C. The lymphatic system is the sewer system of body. If the lymph is sick, congested, and toxic then waste can't leave the body. It's like having clogged pipes in your house that back up, but you never fix the pipes. What happens to your house? If the cells don't have the basics of life, they get damaged and cannot reproduce healthy cells.

D. Dirty lymph and congested bodies result in ACIDOSIS. Acids eat your organs, fuse them together (endometriosis for example) and degenerate your tissues.

E. Besides lymph, we have the liver, kidneys and spleen all designed by God to filter blood. The life of all flesh is its blood. We have skin that removes toxins when the body is sick (skin cancer). God has designed an amazing and intricate system to keep the blood clean and healthy. When the body gets congested, cells get sick. Would you choose to swim in crisp, clean mountain stream or a sewage lagoon? Most all chronic disease conditions are the result of toxicity build-up and acidosis in the body.

F. This also creates environment for BACTERIA, FUNGUS, VIRUSES and PARASITES. These organisms thrive in congested, acidic conditions. These infections are almost always linked to cancer.

G. What we call disease is the effort of the body to eliminate waste, mucus and toxins. Cancer is no different. The body builds protective walls of poisons to keep toxicity contained (tumors and cysts). As soon as you open it (biopsy), you spread cancer.

H. Leonardo Da Vinci said "Vitality and beauty are gifts of nature for those living according to its laws."

### III. CHOOSING GOD OR CHOOSING MAN

A. Imagine God looking down on us, so excited about His creation and the beauty of what He has given us.

***"Every good gift and every perfect gift is from above, and comes down from the Father of lights, with whom there is no variation or shadow of turning." James 1:17***

B. And look at the choices we have made instead. We have created a culture of sickness and disease by choosing man-made inventions. And when sick, we run to man-made solutions. The result is people scrambling for answers, questioning God, and leaving this earth prematurely. God has more for us if we choose it.

C. Sickness and disease has become big business. There is little money in healthy, free people. There are billions to be made on sick, controlled people given limited and expensive choices. By 1950, a monopoly on the medical industry was complete. God has been completely removed from medicine...

D. Patents must be synthetic to be patented because you cannot patent God. Disease became a MARKETPLACE, for business and strategies designed to steal money, keep people sick, and keep money coming in. The industry thrives on the continuation of disease and the creation of new diseases and drugs.

***"For My house shall be called a house of prayer for all nations." Isaiah 56:7***

***"It is written, my house will be a house of prayer, but you have made it a den of thieves!" Luke 19:46***

E. Chemotherapy was discovered in the 1940's when they found mustard gas would suppress the immune system and destroy lymphocytes. Chemotherapy is poison therapy. 90% of doctors would never do chemotherapy, yet doctors can lose their jobs for not recommending chemotherapy and radiation.

F. Half of all cancer is medically induced; using drugs, chemotherapy and radiation. Why would we poison a body that is already sick? Why would we poison children and call it medicine? Why would we poison the elderly when they are already struggling with age-related weaknesses? Most people do not die of cancer, they die of cancer treatment. 2004 study in the Journal of Oncology showed 97% of people on chemotherapy were gone within 5 years.

G. The lie of chemotherapy. Yes it kills cancer cells. It kills EVERYTHING. Cancer is the toxic reproduction of new cells from a stem cell.

- A stem cell is an undifferentiated cell that is capable of giving rise to indefinitely more cells of the same type.

Stem cells produce daughter cells which grow into a mass or tumor. Chemotherapy kills daughter cells and shrinks tumor, but never kills the stem cell or the "ROOT". Chemotherapy **DOES NOT** eliminate cancer. The idea that cancer "came back", is flawed. It never left in the first place! When it does return, it is always more aggressive because we have made the body more toxic from the chemotherapy.

H. A new discovery makes the old system worthless. If the medical system were to admit that GOD is a healer (prayer, nutrition, herbs, etc.) it would make their system obsolete.

#### **IV. GOD IS THE AUTHOR OF LIFE**

A. The cells and the human body need LIFE! What is life? Jesus Christ, clean blood, sunshine, apricot seeds, fruits, vegetables, clean water, herbs and plants, happiness, joy, relationship, community, LOVE, laughter, peace, fruits of the spirit, prayer, turmeric, kindness, self-control, oxygen, sandy beaches, sunsets, sunrises, mountains. Do we see anything on this list in our current system of medicine? Why not? God has been removed...

B. How to heal? We must eat for life. Raw fruits, veggies, greens, nuts and seeds. See Genesis 1:29.

C. How to heal? We must BUILD. We build with foundational elements of God's design such as sunshine, alkaline water, minerals, amino acids, and probiotics

D. How to heal? We must CLEANSE. We must clean blood, lymphatics, liver, kidneys, spleen, lungs and skin. We must use God's cleansers and healers such as the herbs, plants and medicines all around us.

E. How to heal? We must LOVE, PRAY, FORGIVE and REPENT.

#### **V. HEALING RESOURCES**

A. God, prayer and the Bible

B. Documentaries

- The Truth About Cancer

- The Gerson Miracle

- The Beautiful Truth

- Cut, Poison, Burn

C. Healing Centers

- Hoxsey Biomedical Clinic

- Burzynski Clinic

- Gerson Institute
